MALE AESTHETICS ASIA 2015

MINIMALLY-INVASIVE AND NON-SURGICAL MEDICAL
AESTHETIC PROCEDURES FOR THE MALE PATIENTS

10TH MAY 2015, SUNDAY

- 8.15 Registration starts
- 8.45 Ezyhealth's welcome remarks
- 8.50 Chairman's opening remarks

KEYNOTE

- 9.00 Man Power: Understanding the needs of male aesthetic patients for successful cosmetic treatment
 - Analysis on the growing segment of male aesthetic medicine and the needs of male patients
 - Psychology and behaviour of men
 - Identifying differences in procedures which are popular in males and procedures which require male-specific approaches
 - How to define a "successful" cosmetic treatment in men

DR TERRENCE KEANEY, Dermatologist, Washing
Institute of Laser Surgery, USA

- 9.45 Morning Refreshment and Networking

- 10.30 Robotic Hair Transplantation

DR CHEN KEN KUN, Chief of Hair Transplant Center,
Chang Gung Memorial Hospital, Taiwan

- 10.55 Common facial pigmentary problems in men

- 11.25 Reserved for Solution Provider

- 12.30 Networking lunch and exhibition visits

- 14.00 Creating a chiselled face with perfect ratio in men
 - What is the golden ratio for a perfectly masculine face?

DR TERRENCE KEANEY, Dermatologist, Washing
Institute of Laser Surgery, USA

- 14.25 Male gynaecomastia - secrets to success
"Man-boobs", one of the commonest presentations by
men to cosmetic practitioners, is also one of the most
straightforward and rewarding cosmetic conditions to
treat. However one must follow certain golden rules

in order to ensure a successful outcome and a happy patient. In this lecture we will review the different types of gynaecomastia, discuss investigations and surgical planning, and examine some specific techniques.

DR TONY PROCHAZKA, Cosmetic Surgeon,
Medaesthetics, Australia

- 14.50 Are we finally turning the tide? Current and emerging therapies for hyperhidrosis

DR KEVIN LEE, Chief Director (Dermatology and Cosmetic Dermatology), Belle Peau Clinic, Hong Kong

- 15.15 Afternoon refreshments and exhibition visits

- 16.00 Sculpting the male torso - the 3D approach
Achieving an aesthetically pleasing male torso via liposculpture requires a thorough understanding of the anatomy and aesthetics of the male body, as well as sensitivity to the wishes of the client. Good planning and careful execution are important steps to achieving the best possible outcome for each individual. Some controversies emerging from the introduction of new technologies will also be discussed.

DR TONY PROCHAZKA, Cosmetic Surgeon,
Medaesthetics, Australia

- 16.25 Topic TBA

DR LUIGI MAZZI, Dermatologist, Medical Director,
Medilight, Italy

- 16.50 The minimally invasive penile enhancement procedure
 - Reviewing surgical, non-medical and medical options for penile enlargement
 - Risk profiles and post-surgery complications management
 - Penile enlargement using minimally invasive techniques

DR PHILIPPE HAMIDA-PISAL, Managing Director, PHP
Aesthetic - PHP Wellness, UK

- 17.15 Chairman's closing remarks

AAAM BRINGS YOU ASIA'S ONLY FAT GRAFTING SUMMIT

48 HOURS OF EXTENSIVE TRAINING:

- 1 Full-Day Conference
- 4 Live-Demo Workshops
- 1 Technology Marketplace Showcase

Fat Grafting Asia Summit 2015 aims to provide surgeons an amazing platform to tackle the biggest challenges they are facing in fat grafting procedures:

1

Lowering the Complexity of Autologous Fat Transfer

2

Achieving Excellence for Fat Grafting on Breast & Buttocks Augmentation Results

3

Boosting Facial Contouring & Skin Rejuvenation through Fat Grafting Procedure

4

Uncovering the Future of Wound Healing: Fat Grafting – Tissue Engineering & Cell Therapy Studies

TESTIMONIALS from Fat Grafting Asia Summit Global Events

The Conference exceeded my expectations. There are business directors, venture capitalists, private equity firm managers and doctors from different medical aspects- dermatologists, plastic surgeons, family practitioners ... this is a diverse group of individuals all together coming with one purpose in mind and that is to promise the business of aesthetic medicine and cosmetic plastic surgery. This is definitely the place to meet all the right people and make the right contacts to further your career.

– Daniel Kaufman,
Founder & Medical Director, Discreet Plastic Surgery and Riverside Surgical Arts, USA

What attracted my attention is the concept of this congress. It is amazing, I have never seen in a long time for something that is niche and different in concept like this.

– Dr Alfredo Hoyos,
Inventor of Vaser Hi-definition for Liposculpture, Columbia

The event was very well organized and the live surgery case was very well selected, this event certainly optimizes teaching in the field of fat grafting.

– Dr Patrick Tonnard,
MACS Lift & SNIF Technique Inventor, Belgium

I was impressed with the quality of the event and I believe it is important to exchange our knowledge on the activity of fat.

– Dr Gino Rigotti,
President, International Society of Plastic Regenerative Surgery, Italy
